eMitra Rajasthan CSC

eMitrais an initiative of Government of Rajasthan to provide citizen-centric services in an integrated form through service & information delivery points called as 'e-Mitra' centres / kiosks. e-Mitra Project integrates LokMitra and JanMitra initiatives under a single umbrella to bring together all the departments and give citizens of the State a "multi-service"- "single-window" experience.

Some of the key objectives of eMitra are to enable citizens to access information and services of the Government in an efficient, convenient, transparent and cost effective way; facilitate Citizen to Government interface for exchange of information, services and other benefits; improve quality of life in rural areas through use and propagation of ICT for all sections of people, addressing the entire spectrum of their needs; bridge the 'Digital Divide' enabling the flow of information, resources and service into the rural areas and markets and vice-versa; to provide avenues for employment to rural youth, and enable the building of infrastructure, technology and services for a state-wide networked economy on a single platform for the Government, Business and Citizenry.

The project is based on a Public Private Partnership (PPP) framework with investment coming in from private partners
